Federal Trade Commission Regulation Rule Form

The Federal Trade Commission Trade Regulation Rule on “Funeral Industry Practices” requires certain disclosures and prohibits misrepresentations. The following is a check list we ask those we serve to read and sign for the purpose of confirming that during the funeral arrangement conference our direct disposer company did comply with the procedures outlined below.

1. You were given (or read online) a General Price List prior to discussing, or upon beginning discussion of the prices of funeral goods or services, the overall type of funeral service or disposition, or the specific funeral goods or services offered.
2. If applicable you were shown a Casket Price List prior to or upon beginning discussion of caskets or alternative containers or cremation, and before you were shown any.
3. If applicable you were shown an Outer Burial Container price List prior to or upon beginning discussion of outer burial containers, and before you were shown any.
4. You were advised that the law does not require embalming except in certain special cases. You were advised that embalming is not required for direct cremation, immediate burial or refrigeration is available and the funeral is without viewing or visitation and with a closed casket, where state or local law does not require embalming in such cases. If embalming was provided, it was done with your approval or with the permission of someone authorized to give approval.
5. You were advised that no law requires a casket for direct cremation.
6. You were advised that state law does not require the purchase of an outer burial container. However, many cemeteries now make such a requirement to prevent the grave from sinking in. A grave liner or burial vault will satisfy these requirements.
7. No claims were made to you as to the merchandise or other offerings of this direct disposer establishment to the effect that embalming or the use of any merchandise available from this establishment would delay the decomposition of the remains for a long-term or indefinite time, or that any such merchandise would protect the remains from gravesite substances if such was not in the case. No representations or warranties were made to you about the protective features of caskets or outer burial containers other than those made by the manufacturers. The only warranties, expressed or implied, granted in connection with any merchandise sold with the funeral service you arranged were the express written warranties, if any extended by the

manufacturers thereof. No other warranties and no warranties of merchantability or fitness for a particular purpose were extended to you.

8. If applicable, you were given a Statement of Funeral Goods and Services Selected which listed all of the services and merchandise you selected.

By giving your signature below, undersigned hereby confirm that the foregoing procedures were complied with in their entirety by the Direct Disposer establishment.
